

Hydrogeologist

OPRA has identified the need for an additional hydrogeologist to assist with critical needs in the RCRA and UIC programs. Needs include:

RCRA:

-
-
-
-
-
-
-
-
-
-

Ex. 5 Deliberative Process (DP)

UIC:

- Dewey Burdock Uranium ISR Aquifer Exemption (AE): **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

- Encana's Moneta Divide Aquifer Exemption: this project has been ongoing for the past

Ex. 5 Deliberative Process (DP)

- Pending Aquifer Exemption Requests from WDEQ **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Our preference would be to have the hydrogeologist reside in OPRA to ensure that we have someone who has regulatory experience to assist with the regulatory needs of these programs. Many of these sites will take considerable time to address, and being able to consistently rely on the same hydrogeologist to support these activities will be more efficient
